EED recast: energy poverty related provisions

Energy efficiency = the most effective solution to:

- alleviate energy poverty and
- overcome some of the potential negative distributional impacts of pricing measures.

Article 8 and Article 22 of EED recast proposal

Article 8 – Energy savings obligation

Article 8(3) – contributing to just transition

Each Member State to achieve a **minimum share** of the required cumulative amount of energy savings among people affected by energy poverty, vulnerable customers and, where applicable, people living in social housing.

This **individual share** shall at least equal the proportion of households in energy poverty as assessed in each Member State's **NECP**.

If not notified in the NECP, the share shall be calculated in accordance with **indicators** provided in Article 8(3).

Member States shall submit the required information in the updates of their NECPs (in line with the 'Governance Mechanism').

Article 22 – Vulnerable consumers and energy poverty

Member States:

Shall **empower and protect** energy-poor and vulnerable households

Shall **implement EE measures** as a priority among energy-poor and vulnerable households

Shall make **best possible use of public funding** – at national and EU level – to empower and protect vulnerable customers and to alleviate energy poverty

Shall establish a **network of experts** to develop strategies in implementing energy efficiency improvement measures alleviating energy poverty
