Questionnaire for expressing interest to receive support for designing and implementing schemes to tackle energy poverty

SocialWatt, a project funded by the Horizon 2020 programme of the European Union, aims to enable energy companies across Europe **to develop, adopt and spread innovative schemes to alleviate energy poverty**.

Within the framework of the project **ten companies** will receive support from SocialWatt **to facilitate the development and implementation of innovative schemes to tackle energy poverty that will trigger energy efficiency/renewable energy interventions**. The schemes can be implemented **as part of their Energy Efficiency Obligation**. In order to achieve this, the following is envisaged:

- › Two bilateral meetings will take place, during which beneficiaries will have the opportunity to spend time with one SocialWatt partner and directly learn from their experience (on-line and/or physical meetings).
- › Continuous technical support will be provided by SocialWatt partners in a variety of ways, such as phone calls, emails (disseminating state-of-the-art material and documents) and teleconferences, as deemed necessary.

To express your interest to be supported by SocialWatt, please return the completed questionnaire by the 11th of March 2022 to Mr. George Stravodimos at: george@IEECP.ORG.

Organisation:

Country:

1. Do you have energy saving / carbon dioxide emission reduction targets or commitments? Do you have an Energy Efficiency Obligation under Article 7 of the Energy Efficiency Directive?

☐ No

☐ Yes (please provide details):

.....

.....

.....

.....

.....

.....

2. Do you have social targets/targets to alleviate energy poverty?

☐ No

☐ Yes (please provide details):

.....

.....

.....

.....

.....

.....

3. Are you interested in developing energy efficiency/RES schemes to alleviate energy poverty?

☐ No

☐ Yes (please provide details):

.....

.....

.....

.....

.....

.....

4. What is the outcome or objective that you would like to achieve from the joint exchange? What are the key challenges that you would like to address during the bilateral exchanges?

Please provide details:

.....

.....

.....

.....

.....

.....

5. Do you have human resources available to allocate for the bilateral exchanges?

☐ No

☐ Yes (please provide details):

.....

.....

.....

.....

.....

6. Do you have experience in designing and delivering energy efficiency schemes?

☐ No

☐ Yes (please provide details):

.....

.....

.....

.....

.....

7. Has your organisation already designed and implemented schemes that support energy poor households?

☐ No

☐ Yes (please provide details):

.....

.....

.....

.....

.....

8. Do you have management support to explore and design energy efficiency/RES schemes to alleviate energy poverty?

☐ No

☐ Yes (please provide details):

.....

.....

.....

.....

.....

9. What percentage of your customers would you consider as energy poor? (arrears in utility bills can be an indicator to assess the scale of the issue)?

Please provide details:

.....

.....

.....

.....

.....

10. Please provide any other information you feel is relevant:

.....

.....

.....

.....

.....

Thank you for your time for completing this questionnaire.
